SEVIER Co., TENN., Dec. 20, 1878. MR. EDITOR: I wish to inform the readers of your paper that I had the pleasure of attending the closing exercises of the public school at Gist Creek, which was taught by J. M. Parsons. The school commenced on the first Monday in August and has been in progress five months nearly, and during this time Mr. Parsons has shown himself to be master of his profession. One of the members of the Board of Directors informed me that this has been the most successful school that has ever been taught here. This fact was clearly demonstrated to all present during the examination.

The afternoon exercises consisted of a number of select readings, which wer-admirably performed, being interspersed with appropriate music. There were prizes offered to those who | Anderson and her manager, Jno. W. excelled in reading, which were ob- Norton, but it was afterwards withabout three decades constitute the tained by Laura F. The temperance movement, which is so strongly agitating the public mind, has also been introduced into House next Friday and Saturday this vicinity, through the earnest efforts of Messrs. J. C. King and J. M. Parsons. On the night of the 15th of November last the people met to organize a temperance society. Broad Street Church was the scere of an interesting Sunday-school Concert and Jubilee last Sunday night, under the general leadership of the pastor, Rev. W. W. Bays, and the house was thronged with an appreciative congregation. Appropriate and well chosen remarks were made by Rev D. H. Dickey, pastor of Mabry Street Church, Rev. Mr. Davis, of Messrs. J A. In the first place, it is very in a readable shape, and to will the truth though | rich in heating qualities, and at the same time hard and clean. To heat a room of a given size will, of course, require a certain amount of carbon; now, if you have a pure coal like the Black Diamone, the room will be warm and comfortable with the teast amount of coal, while if the coal is of a poor quality it whit take from fifty to one hundred per cent, more to give out the same heat, th reby materially increasing the

cost of your fuel. This is the reason why this coal is: shipped 500 miles or more, condeg directly in contact with coals that are within five or ten miles of the cities and towns where the Black

Diamond is sold. T. H. HEALD, General Manager, 105 Gay Street, KNOXVILLE, TENN.
